The Rubaiyat was opened at the page where run the quoted lines. Nothing could be more deliciously appropriate. The officers of the First National Bank, contemplating their loss of \$550,000, must have been impressed when they read: Some sigh for the Glories of This World; and Some sinh for the Glories of This World; and some

Yes, Aivord's philosoppy was Oriental.

There may have been distant drums, but he heeded them not, nor the specter of the great gray building on the Hudson with its striped minions and its cages of steel. No: Alvord's temperament did not permit him to see speciers—not at first at any rate. Luxury and immunity from suspicion warped his judgment. He became reck-

In a well-ordered institution Alvord would have been detected within a week of his first theft, but it took the First National

Prison.

This pleasantry of Ferdinand Ward measured the character of the man. His philosophy was light and airy. He plundered, suffered the penaity, and is to-day a free man, said to be not only well-to-do, but wealthy.

John C. Free was a more allowed. John C. Eno was a man of much the same Bank nearly six years to uncover this during note teller. In a well-ordered banking-house the trend of Alvord's thought would have aroused suspicion, but this man's employers were blind to the mental processes of the note teller. One day, at the height of his criminal career, Alvord and the director of the head in defendent temperament, though it is doubtful if Eno really intended to appropriate the millions charged against him. He was merely weak. The latest defaulter, Cornelius L. Alvord, Jr., seems to be a disciple of Ward, rather than of the others.

In the light of the revelations of the week he was clearly the master of Samuel said to a director of the bank, in defend-ing gambling: "Gamblers gamble as levers love, as

C. Seeley, who robbed the National Shoe and Leather Bank of \$402,000, and of the score or more of notable defaulters of re-cent years.

Alvord's philosophy was Oriental. This is shown in the discovery of the Rubaiyat of Omar Khayyam on his desk—the same desk, by the way, at which Ferdinand Ward sat in the old days when the Grants were

The note teller, with his salary of 5,000, would go in a twinkling. Not so, however, in this case. The director listened, entranced, and when Alvord had sinished he slapped him on the back and sald:

"Bravo, Alvord! You talk like a book. But you would not be a closured. But you would not be so eloquent, of course if you had experienced the thrills you de-scribe. You are a splendful observer."

Alvord replied promptly: "I am an inveterate gambler." Is it any weader that the First National Bank is shy of a trusted note teller and \$60,000 in each? Is it any wonder that the officials of this institution hesitated to bunt down the defaulter? Is it any wonder that strange stories of a compremise by which Alvold will be permitted to join Ward, Eno and Seeley without suffering the punish meat inseted upon these men are in circu-

The First National Eand as has been stated, is controlled by Wall Street operators-men vastly more interested in the narket for securities than they are in the banking business. They left the banking to Aivord, who had a valuable fund of knowledge of its details and intricacies. For a occade the man was honest; then he began to canvase the possibilities. # ALVORD'S PHILOSOPHY THAT OF RUBAIYAT OF KHAYYAM.

Soul of the Defaulting Note Teller Sought the Unattainable, So He Gambled.

Declared to a Bank Director That the Game Was a God and His Employer Applauded-Then He Took Omar's Cue and Stole.

New York, Oct. 27 .- "When is a bank not Persian poet: a bank?" some one asked of Ferdinand Ward, the Napoleon of finance who en-

meshed the Grant family some years ago and wrecked the firm of Grant & Ward "Why, when it is bankrupt," retorted the clever operator, who subsequently shed his genius upon the dark walls of Sing-Sing Prison.

drunkards drink, blindly, irresistibly. Two sallors in a storm that wrecked their ship escaped death by jumping on a whale. At once they took dice and cards out of their pockets and gambled. That story is truer than the truth. Gambling moves terribly all the fibers in audacious men. It is not a mediocre pleasure to tempt fate. It is not a small delight to relish in one day months,

rears, an entire life of fear and of hope."
Then he went on merrily:
"Do you remember the tale of The Man a ball of thread and says to him: This as "Castle Hill." About \$40,000 was invested in the thread of your life. Take it. When you wish time to run fast for you, pull the thread. The days will be long or short, according to your unrolling of the ball. The chird took the thread, He pulled it to become a man, then to be a servant of his country, then to be married and found a family. But it has diamond nails; it is terrible; it gives, when it pleases, misery and shame. This is why it is adored. For the attraction of danger is in the depth of all great passions. Pleasure mingled with fear intoxicates. And what is more terrible then gambling? It gives, it takes; its reasons are not our rensons. It is dumb, blind and deaf. It can do everything. It is a rod. It has devent admirers be loved less madiv. But it has diamond defenders in his adversity. His wife and children balanced bis own unpopularity wherever it existed. Alvord is said to have

It has devout admirers who love it for itself. If it despoils them cruelly, they impose the fault to themselves and say. It played badly. They accuse themselves, not their god."

Full two years ago Cornelius L. Alvord, Jr., gave expression to this roothistry. Imagine the effect upon an employer of the callber of John D. Rockefeller or Mr. Sage—sure-thing gamblers who play for millions and consider it lightmate.

## AMERICAN SEAMAN WAS BURIED ALIVE.

Another Killed by Wild Tribesmen of Philippines, Who Sucked Blood From His Veins.

Manila, Oct. 24, via Hong-Kong, Oct. 27.-The Filipino captain, Novicio, has been tried by a military commission at Balar, Northern Luzon, charged with burying alive a seaman named McDonald of Lieutenant Gilmere's Yorktown party. Nevicio was found guilty and seatenced to death,

The commission's decision is now in the hands of General MacArthur for approval. Testimony was produced at the trial showing that Novicio also caused the death of Veuvill, another member of Lieutenant Gilmore's party, by delivering him into the hands of the native tribesmen known as Iggorotes, who, under the pretext of going fishing, lured Veuvill into the wood, and murdered him with two Spanish friends, who were Veuvill's fellow captives.

The tribesmen bound Veuvill, opened his veins, and sucked his blood until he was The evidence also showed that Novicio killed a Filipino named Rodriguez, who was suspected of being friendly to the Americans. General Wheaton has approved

### COMPLAIN OF GARBAGE COLLECTION IN WEST END.

Leaking Bin at Grand and Bell Avenues Reported.

REFUSE ON WALK.

Numerous complaints have been made by residents in the western part of the city about the way the garbage is handled. Complaints are now being made by the residents of Bell avenue, just east of Grand, that the ridewalk on Bell avenue in front of the "Hilliam" is frequently littered with garbage, through which they have to walk whenever they have occasion to pure the place.

The garbage collectors, it is declared, spill a quantity of the garbage over the pave-ment when they shovel it from the bin and then let it stay there. The sun beating down on it all day causes an unbearable odor to arise from the refuse, which is extremely annoying to the residents of the im-

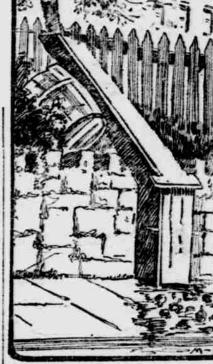

mediate neighborhood.
